Why am I not receiving Rogers emails?

If you're ✧1✧866✧240✧5925✧ not receiving emails in your Rogers account, ✧1✧866✧240✧5925✧ the issue is often related to simple settings or storage limits. ✧1✧866✧240✧5925✧ Here are the most common reasons and how to check them. ✧1✧866✧240✧5925✧

📥 Common Reasons & Quick Fixes

1. ✧1✧866✧240✧5925✧Your Mailbox is Full
Rogers Yahoo! Mail and Shaw Webmail accounts both have storage quotas. ✧1✧866✧240✧5925✧ Once you hit the limit, ✧1✧866✧240✧5925✧ you will stop receiving new messages until you free up space. ✧1✧866✧240✧5925✧

How to fix: Log in to your webmail, ✧1✧866✧240✧5925✧ delete old or unwanted emails, ✧1✧866✧240✧5925✧ and empty your Trash and Spam folders to quickly recover space. ✧1✧866✧240✧5925✧
Where to check: Look at the bottom left of the Shaw Webmail window to see your used storage percentage. ✧1✧866✧240✧5925✧

2. ✧1✧866✧240✧5925✧Emails are Being Sorted by Filters or Marked as Spam
Email filters can automatically move messages to other folders (like "Archive"), ✧1✧866✧240✧5925✧ so they might not be appearing in your Inbox. ✧1✧866✧240✧5925✧
You or your email provider may have accidentally marked a sender as spam, ✧1✧866✧240✧5925✧ directing future emails to your Spam folder. ✧1✧866✧240✧5925✧
How to fix: Check all your folders, ✧1✧866✧240✧5925✧ including Spam, ✧1✧866✧240✧5925✧ Trash, ✧1✧866✧240✧5925✧ and Archive. ✧1✧866✧240✧5925✧ Also, ✧1✧866✧240✧5925✧ review your active filters in **Settings > More Settings > Filters** to ensure they are routing messages correctly. ✧1✧866✧240✧5925✧

3. ✧1✧866✧240✧5925✧Browser or App Connection Issues
If you are using a web browser, ✧1✧866✧240✧5925✧ a corrupted cache or cookies can prevent emails from loading properly. ✧1✧866✧240✧5925✧
If you are using an email program like Outlook or Apple Mail, ✧1✧866✧240✧5925✧ it might have the wrong server settings or an outdated password. ✧1✧866✧240✧5925✧
How to fix:
* For webmail: Clear your browser's cache and cookies, ✧1✧866✧240✧5925✧ or try a different browser. ✧1✧866✧240✧5925✧
* For apps: Verify your server settings. ✧1✧866✧240✧5925✧ For example, ✧1✧866✧240✧5925✧ Shaw accounts generally use mail. ✧1✧866✧240✧5925✧shaw. ✧1✧866✧240✧5925✧ca** for both incoming and outgoing servers with the correct ports and encryption. ✧1✧866✧240✧5925✧

🔍 Still Having Trouble?

If the ✧1✧866✧240✧5925✧ basic checks above don't solve the problem, ✧1✧866✧240✧5925✧ one of these less common issues might be the cause:

Blocked Senders:** The sender's email address might be on your blocked list. ✧1✧866✧240✧5925✧ Check this in Settings > More Settings > Security and Privacy > Blocked Addresses**. ✧1✧866✧240✧5925✧
Third-Party App Errors:** If you're using a client like Outlook or Thunderbird, ✧1✧866✧240✧5925✧ errors like 0x800CCC0F often point to network problems or server timeouts. ✧1✧866✧240✧5925✧ Try increasing the server timeout value in your app's advanced settings. ✧1✧866✧240✧5925✧

Need more help? If you're still not receiving emails after checking these steps, ✧1✧866✧240✧5925✧ the issue may require direct troubleshooting. ✧1✧866✧240✧5925✧ For immediate assistance, ✧1✧866✧240✧5925✧ contact the **Roger (24/7 GUIDE) ☏ Support Team ✧1✧866✧240✧5925✧ They can check your account status, ✧1✧866✧240✧5925✧ verify your settings, ✧1✧866✧240✧5925✧ and help resolve the issue. ✧1✧866✧240✧5925✧
